

ATT ATT
TECHNICAL RIDER
ccap

att att

This technical rider is an integral part of the contract regarding the performance att att. The requirements stated herein have been set for the mutual benefit of the Organizer and the Company to achieve a technical presentation of the performance. Drawings of the Organizer venue, plan and section, inventory lists and digital photos showing the performing space are to be sent to the Company coordinator. The Organizer is required to provide technical crew, adequate performing conditions, and dressing room facilities as noted below.

No part of this rider can be changed without the written consent of the Company.

CREW

COMPANY CREW

1 choreographer
7 performers
1 technician

ORGANIZERS CREW

For load-in and set up, strike down and load-out

1 sound manager
1 stage manager
3 stage hands (if the Company provides a dance floor)

For rehearsal and performance

1 sound manager

It is crucial that at least one of the Organizer's crew members has extensive knowledge regarding the venue's electrical installations, stage machinery, sound- and light console etc, as well as able to speak English and has budget authority.

MARKETING

A press-package is provided by the Company. Marketing or press activities involving any of the Company crew must be settled in advance with Masha Taavoniku. Additional public and/or publicity activities such as artist talks and post performance discussions as well as visual recording of the performance are to be settled in contract.

SPACE

Minimum performing area of w 12 x d 12 m x h 4m

The company requires access to the space the day before and on the performance day. Exact schedule should be agreed upon between the Company and the Organizer.

Performing space must have an air temperature maintained +24 degrees Celsius from 3 hours before any performance or rehearsal throughout the residence.

The floor of the performing area must be of wood with a sprung or a dance floor construction as well as smooth and level. The Company will not rehearse or perform on a concrete floor, even if it is covered with linoleum or wood laid directly on the concrete. If needed the Company will provide a dance floor

Performing space must be adequately cleaned (swept and mopped) before set up and throughout the residency. The dance carpet must be dry and available 60 minutes before rehearsals and performances.

Backstage area must be clean and free of nails, splinters, or any other protrusions.

The sound and video operator is in need of secure, easily accessible seating in the space. Good uninhibited overlook and hearing of the entire space is required. Sound and light desks should be operational from one station only. The Organizer should make sure that the power feed for the sound and video system is isolated from the lights and dimmers and any other source of electricity in the stage premises.

Dressing rooms should have tables, mirrors, and make-up lights for 7 persons.

Private toilet lavatory and shower facilities with hot and cold running water.

Towels/soap/shampoo are to be available for 7 persons.

The dressing room must have a minimum room temperature of + 24 degrees Celsius.

TECHNICAL REQUIREMENTS

SET

The Company brings:

1 white vinyl dance carpet 10 x 8 m

1 table

1 box approx. 60 x 60 x 60 cm

6 video projectors

1 playback computer

Signal distribution

Optional:

5 lengths grey dance floor 10 x 1,5 m

LIGHT

The Organizer provides:

Adequate lighting for the audience to enter the venue.

Please make sure that all fly-bars/grid are empty upon arrival.

SOUND

ALL sound equipment should be of high quality, for example Nexo, d&b, Meyer. No budget/disco brands as behringer, mackie etc is accepted. The power for the sound should be totally separated from lights.
